| <b>Responsibility:</b>              | Bernhard Preim                                                                                                                                                                                                                                                                                            |
| <b>Lecturer:</b>                    | Bernhard Preim                                                                                                                                                                                                                                                                                            |
| <b>Classes:</b>                     | Seminar <i>Narrative Visualization</i>                                                                                                                                                                                                                                                                    |
| <b>Applicability in curriculum:</b> | <ul style="list-style-type: none"><li>- M.Sc. INF: Informatik</li><li>- M.Sc. INGINF: Informatik</li><li>- M.Sc. WIF: Informatik</li><li>- M.Sc. DKE: Applied Data Science</li><li>- M.Sc. DE: Human Factors</li><li>- M.Sc. DE: Fachliche Spezialisierung</li><li>- M.Sc. VC: Visual Computing</li></ul> |

## Intended learning outcomes:

Students ...

- can apply methods of narrative visualization for Science communication
- can design and present topics of Science communication

## Content:

- Overview of Narrative Visualization

- Concepts and Tools for Story Generation
- Applications in climate research, molecular research and astronomy
- Applications in business and finance

**Workload:**

28 h contact hours + 152 h self study

| Pre-examination requirements: | Type of examination: | Teaching method / lecture hours per week (SWS): |
|-------------------------------|----------------------|-------------------------------------------------|
|                               | Referat              | 2 SWS Seminar                                   |

| Prerequisites according to examination regulations: | Recommended prerequisites:  |
|-----------------------------------------------------|-----------------------------|
| keine                                               | Module <i>Visualization</i> |

| Media: | Literature: |
|--------|-------------|
|        |             |
